EDUCATION

IIIT Pune, Pune, Maharashtra

July-2022 - present

BTECH CSE, CGPA: 8.83, Graduation: June-2026

Pune, India

EXPERIENCE

Ecell - IIIT Pune Co-Head (Web Department)

Nov-2023 - present

- Built a responsive website for over **2000 users** using **Next.js** and **Aceternity UI**, improving **SEO performance by 30%**, resolving static rendering issues, and facilitating seamless deployment . <u>Link</u>
- \bullet Established a robust hosting environment on Vercel , integrating a custom domain from GoDaddy and deploying a scalable database on MongoDB Atlas , enhanced site performance by 30% across all devices .

PROJECTS

FusionSpace - collaborative Workspace 🗷 | React.js , Socket.io , Tailwind CSS , Express.js Jan-2025

- Real-time Editing: Addressed the lack of collaborative coding platforms by enabling real-time synchronized editing, improving team productivity.
- Dynamic File Management System: Built a system to create, edit, and delete files collaboratively, Accomplished seamless synchronization using WebSockets, reducing editing conflicts by 10%.
- \bullet Custom File Export Feature: Implemented functionality to download all files locally , boosting platform usability and flexibility for users .

June-2024

- Problem : Critical gaps in human resource availability , consistent attention and support for 24/7 security .
- Solution: Converted the audio file into 30-second clips from environment and converted into features using Librosa MFCC function and analyzing it using \mathbf{ANN} .
- Model Trained on 8500 + audio samples to detect mishap and sending alert to concerned.

EduHome Z | React.js, ZegoCloud, MongoDB, Socket.io, Express.js

March-2024

- Implemented a comprehensive Online learning platform that enabled students to purchase courses, take mock tests , attend live classes .
- Developed the integration of In-site Compiler alongside Live Server for Web , achieving a notable improvement in learning speed by 70%.

TECHNICAL SKILLS

- Languages: C/C++, Python, Java, JavaScript/TypeScript, SQL, HTML
- Developer Tools: VS Code , JupyterLab , IntelliJ IDEA , Google Colab
- Technologies/Frameworks: React.js , Node.js , Express.js , REST API , Next.js (basic), MySQL , Redux Toolkit , Docker (basic) , TensorFlow , MongoDB , Socket.io , Tailwind CSS , Auth0 , GitHub .

HONORS AND ACHIEVEMENTS

- Reached a 3-star Rating at Codechef, Pupil at CodeForces, Knight at (1861) Leetcode.
- Achieved a Global Rank of 543 out of 27,473 Participants in Biweekly Contest at Leetcode.
- Finalist at PRAXIS-2024 BlueBit Hackathon with over 90 teams participating.
- Selected as a Contributor for Open Source Projects in GSSOC 2024.

CERTIFICATIONS

- Advance Learning Algorithms Stanford Online
- Postman API Fundamentals Student Expert Postman
